## SOURCE

1. Three classes of reservists have been called up for summer maneuvers in the Cesky Krumlov (Krumau - N49/Q84) area. This is considered normal peacetime procedure. No military units have arrived recently in this area, but SNB units are being strengthened. A new SNB unit of twenty men has been stationed in Horni Plana (Ober Plan - N49/Q63).
2. A number of tanks and guns were recently unloaded in the area of Chlum (N49/Q75).
3. Civilian population is to be completely evacuated from the second zone by the fall of 1950.\* In this area the second zone is bounded by the Moldau River. So far only politically unreliable persons, about two or three in each village, have been moved. They are being sent to the interior, mostly to Moravia.
4. No other signs of extraordinary military activity were noticed in the area.

25X1A \* Comment: It is probable that the second zone refers to the area also reported as the border zone.
